RATIFICATION OF THE CUYAHOGA COUNTY SOLID WASTE MANAGEMENT PLAN UPDATE (2026 – 2040) A Fact Sheet for Community Officials – **DEADLINE TO RATIFY IS August 10, 2025**

The development of the solid waste plan is a requirement of Ohio law. Every solid waste management district in Ohio must periodically update their solid waste management plan and submit it to each political subdivision to be ratified. Ratification occurs when city/village councils and township trustees representing 60% of a district's population, including its largest city and the legislative authority of the county, vote to approve the plan. If a district's plan is not ratified, the Ohio EPA will prepare the plan and order it to be implemented. This fact sheet provides general information about Cuyahoga County's solid waste plan which is now out for ratification.

The Cuyahoga County Solid Waste Management Plan

The Cuyahoga County Solid Waste Management Plan was first ratified by communities in 1994 and four times since. The Cuyahoga County Solid Waste District (the District) and its Solid Waste Policy Committee are now seeking local approval for the fifth Plan Update. The ratification process takes place from May 10, 2025 through August 10, 2025. This Plan Update complies with an Ohio EPA format and contains 6 chapters and 23 appendices. It describes the waste management methods to be used in the upcoming planning period and details how the ten waste reduction and recycling goals established in the State Solid Waste Management Plan will be achieved. It also describes how the Plan will be implemented by the Cuyahoga County Solid Waste District.

What's the best way to review the Plan Update?

The plan chapters provide an executive summary of the plan. The District recommends reading the chapters for an overview of the plan and if additional information is desired, referring to the appendices for more detail. Please find enclosed the 2026-2040 Plan Update summary presentation for your review. Your council clerk will soon receive a Plan Update Summary booklet. The complete Cuyahoga County Solid Waste Management Plan Update (2026 – 2040) is also available on the District's website at CuyahogaRecycles.org and at the Cuyahoga County Solid Waste District's office.

Who prepared the Plan Update?

The Plan Update was prepared by the Cuyahoga County Solid Waste District in conjunction with the Cuyahoga County Solid Waste Policy Committee. Various stakeholders were also consulted through the 18-month process. The Policy Committee consists of the Cuyahoga County Planning Commission members and two public members.

Who implements the Plan Update and how is it funded?

The District is responsible for implementing the Plan Update which contains programs and services that support waste reduction and recycling. The District employs seven staff and is funded by a "generation fee". This fee of \$2.00 is levied on each ton of waste produced in Cuyahoga County and landfilled in Ohio. Cuyahoga County's current \$2.00 per ton fee was increased by \$0.50 per ton in 2023, only the second increase since 1994, and remains one of the lowest in Ohio. Under this Plan Update, the generation fee remains at the current level through 2040. For comparison, the average fee statewide is \$4.74 per ton.

Programs and services offered through the Plan

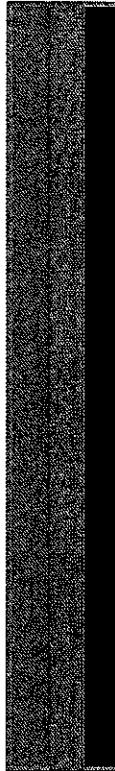

All the existing programs and services offered by the Cuyahoga County Solid Waste District will continue with the ratification of this Plan Update while some new programs will be initiated. See program summary list below.

PLAN REQUIREMENTS

- Required by Ohio Law - Ohio EPA Format
- Demonstrate compliance with State of Ohio recycling goals
- Identify programs to manage special wastes
- Identify programs to meet education/outreach requirements
- Assure availability of landfill capacity
- Identify funding mechanism and resources to implement the Plan

STATE SOLID WASTE PLAN GOALS

- Goal 1.** Ensure adequate infrastructure to give residents and businesses opportunities to recycle.
- Goal 2.** Recycle 25 percent of residential/commercial sector waste.
- Goal 3.** Provide a web site; a comprehensive resource guide; an inventory of available materials management infrastructure; and speakers.
- Goal 4.** Provide education, outreach, marketing and technical assistance regarding reduction, recycling, composting, reuse, and other alternative waste management methods to identified target audiences using best practices.
- Goal 5.** Provide strategies to assist the industrial sector to reduce, reuse, recycle, or compost the materials they generate.
- Goal 6.** Provide strategies to manage special wastes scrap tires, yard waste, lead-acid batteries, HHW and electronics.
- Goal 7.** Identify how to incorporate economic incentives into source reduction and recycling programs.
- Goal 8.** Evaluate the impact of recycling programs on reducing greenhouse gas emissions.
- Goal 9.** Encourage development of recycling markets and the use of recycled-content products.
- Goal 10.** Report annually to Ohio EPA regarding plan implementation of the plan.

WASTE DISPOSAL & TRANSFER

- Waste not recycled or composted is disposed in MSW landfills
- 1.5 million tons disposed annually
- Waste is sent to 18 landfills outside Cuyahoga County
- Transfer stations are used to ship waste longer distances - 17 transfer stations total, 9 in Cuyahoga County
- ✓ Remaining landfill capacity projected at 54 years

Key Elements and Findings

2022 Single Stream Curbside Processors

RECYCLING

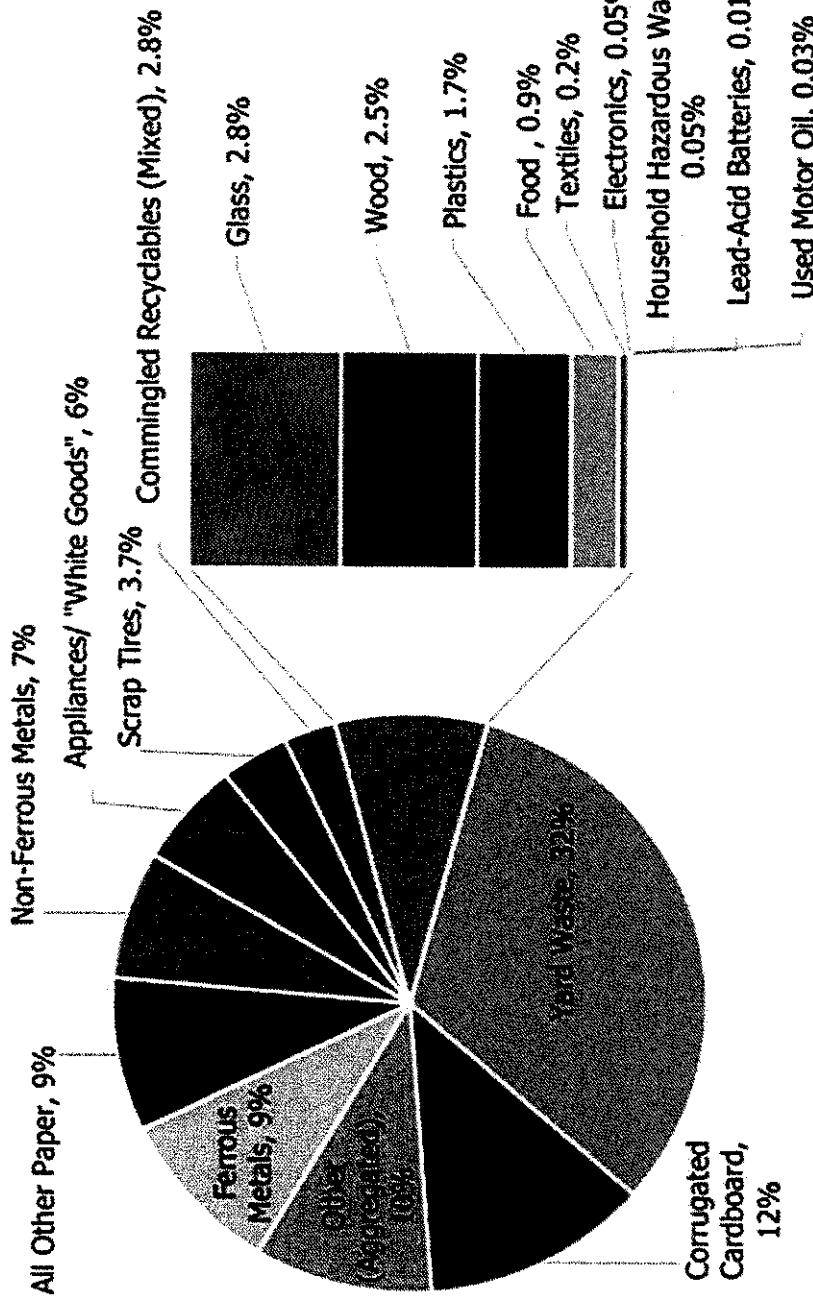

- 38% of waste recycled and composted
- 59 recyclers process 316,731 tons
- 4 MRFs process curbside recyclables
- 56 municipal curbside recycling programs and 22 municipal drop-off sites

- ✓ Plan documents a recycling rate of 24.42% (res/com) and 62.73% (industrial)

Key Elements and Findings

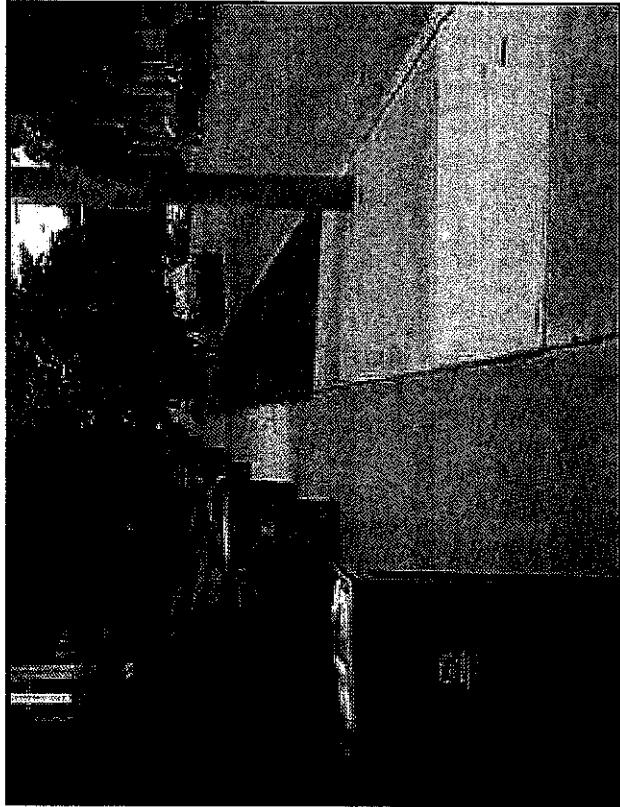

2022 Residential/Commercial Materials Recycled/Composted

- **COMPOSTING**
- 6% of all organic waste composted
- 32% res/comm materials
- 23 registered composting facilities
- 56 cities have yard waste recycling
- Less expensive than landfill

RESIDENTIAL RECYCLING ANALYSIS

**Support existing curbside/drop-off
programs and consortiums**

**Public/private partnerships to establish
“super drop-off centers”**

**Work with communities to decrease
Contamination in recycling**

**Work with communities and private
sector to develop organics composting
infrastructure and programming.**

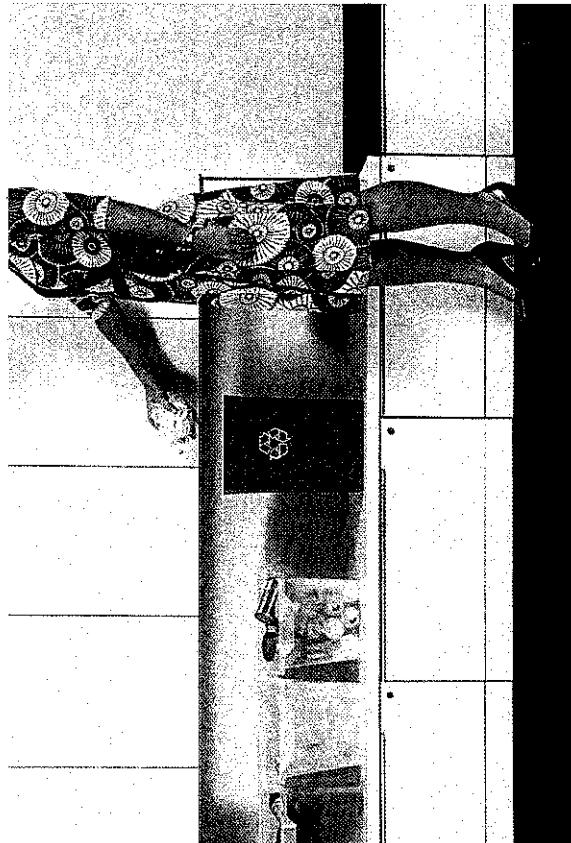

BUSINESS AND INDUSTRY RECYCLING ANALYSIS

Continue existing technical assistance and educational programs

Seek business to become Business Recycling Champions (waste audits, diversion program development, and data tracking)

Work to expand fiber and glass infrastructure and collection

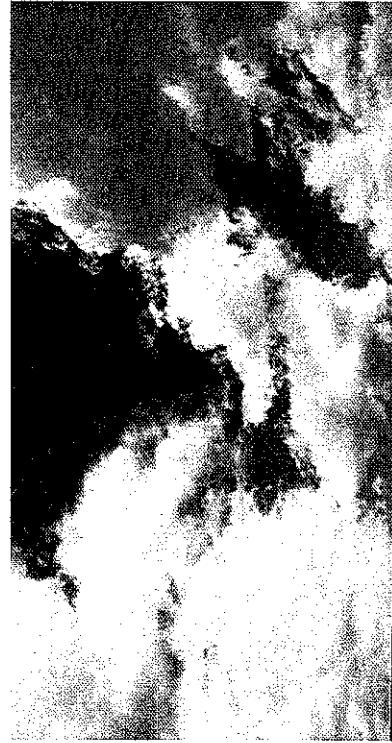

Target small to medium sized businesses without EHS or plan manager

SPECIAL WASTE ANALYSIS

HOUSEHOLD HAZARDOUS WASTE

- evaluate small business drop-off
- expand the type of materials collected

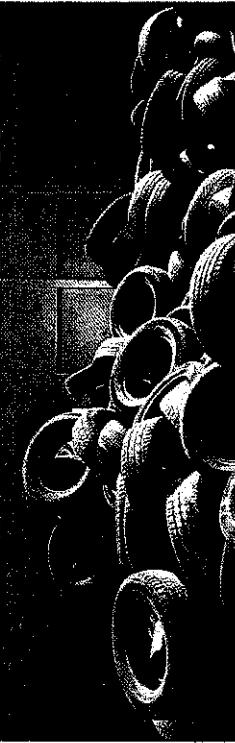

SCRAP TIRES

- resident education
- scrap tire dumping enforcement by ECTF

ORGANICS

- yard waste consortium
- municipal composting cooperative
- food rescue and food waste composting

RECYCLING

LITTER

- facilitate targeted clean-ups

ECONOMIC INCENTIVE ANALYSIS

Adjust Existing Grant Programs

- Increase the type of grant programs offered
- Expand the allowable uses under each grant program
- Increase the dollars awarded

PAYT support
